Which corresponding author is responsible for remaining publication activities?

Wiley requires **one** corresponding author to be assigned to complete remaining pre-publication activities, including:

- Confirming the article's funding information
- Verifying affiliation with institutions that have pre-paid for Open Access publishing fees
- Arranging payment for Open Access fees, when applicable
- Signing the copyright license and/or gathering signatures from copyright owners
- Reviewing online proofs of the final article

Article may be eligible for Open Access APC funding or discount

Copyright ownership

The following steps will establish who has copyright ownership for the work.

After we have identified the relevant copyright owners, we will provide instructions on how the license(s) can be signed and submitted.

Do you own the copyright to this work?

Please select and confirm from the following options

☐ Yes, I own the copyright to this work

This is the correct selection for many works

In most academic and healthcare institutions, faculty retain the copyright for work that they have authored. Please check with your institution to see if different policies apply.

☐ No, I do not own the copyright to this work

Another party may own the copyright to this work

This can apply if:

- This work was completed as part of official duties during the course of employment. Example employers where this can apply:
 - Local government agencies (U.S., U.K., etc.)
 - Private companies
 - Intergovernmental Organizations (IGOs) or Non-governmental Organizations (NGOs)
- There is a related clause outlined in the original statement of work
- The work has been contracted or 'made for hire'

Open Access

Wiley has an agreement with your institution, Karolinska Institutet, to cover eligible open access article publication charges (APCs) for their affiliated authors. Visit our [Bibsam](#) page to find out what type of APC coverage is available from your institution.

Make your article freely available for everyone to read, copy, distribute and share.

Publishing open access:

- Enables the greatest possible readership and multidisciplinary influence
- Allows your article to be cited widely and achieve the greatest possible impact in your field
- Complies with open access mandates - retain copyright and choose a Creative Commons license
